

# SHARE IN MIDDLE BASS CLUB HISTORY AND SUPPORT THE LAKE ERIE ISLANDS HISTORICAL SOCIETY!

Through the generosity of Carroll Terry of NY and organizational efforts of Lisa Fine, we now have a limited edition DVD available that shows film footage from the late 1920s at Middle Bass Club!

The films were made by William Terry and Horace Suydam, two prominent Club members, circa 1901—1932.

We have had the films stabilized by an archival expert to halt further decomposition . Then they were digitally imaged and transferred to DVD for preservation purposes. To defray the costs of having the preservation work done, we are selling copies of the DVD for a limited time.

Prominent individuals featured in this film footage include members of the Beckwith, Berdan, Brooks, Mennel, Suydam, Hixson, Norton, and McAbee families. Most of the footage takes place at the Middle Bass Club waterfront/dock area, with views towards Rattlesnake and Put In Bay. There is a clip from the Main Dock area at Middle Bass also.

*Middle Bass Island Main Dock, circa 1928*

All profits from the sale of the DVD will go to the Lake Erie Islands Historical Society.

Support the memories of the Middle Bass Club...order your copy today!

Check or money order only. Send order form below and payment to:
